

Collection for the Calamities India is Facing

“Remember that the happiest people are not those getting more, but those giving more.”

- H. Jackson Brown, Jr.

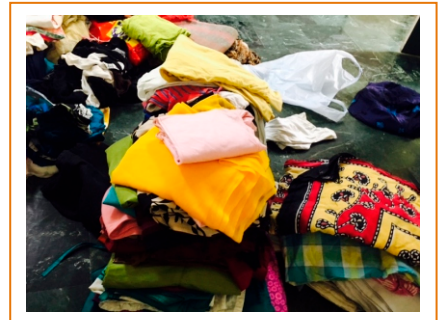

Recently, natural disasters have hit several states of India and many areas are still under high alert. People across the nation have lost their homes, livelihood and are struggling to get their life back to normalcy.

In the wake of these disasters, Newgenites extended their helping hand to the affected people and have contributed a good amount for the same. They have exhibited immense generosity and have donated selflessly to help the victims stay put and overcome losses. Things including clothes, footwear, utensils, packaged food products, woolens and toiletries were donated to Goonj by the Newgen employees.

At the Goonj processing centre, donated stuff is sorted and checked to know whether they are in usable condition. Then the material is packed according to various criteria (age, gender, quality, type) to ensure that it goes to the most appropriate recipients.

We thank each employee for his/her donation to help the people of India in this time of need.
