

Summer Camp with Sadbhavna Children and 10th Graders of Harkesh Nagar School

This summer was fun-packed with exciting learning and engaging activities at Newgen! We conducted 2 months long Summer Camp at our Okhla office for the Sadbhavna children and students of Govt Girls School, Harkesh Nagar.

The activities conducted at the Summer Camp included e-learning sessions on i pad for the children. The most exciting aspect of the session was that our Sadbhavna children, who have been attending the Digital Discovery sessions for more than a year, were our volunteers. They not only took up the responsibility of conducting i-pad lessons to the students, but also guided them throughout. The group was split into Team of 7 leaders, each having 3-4 students. Each Sadbhavna volunteer became a leader of his/her team and was leading their respective Team with a sense of healthy competition to become the best team at the end of the Summer Camp. Jewelry Making Activity, Quiz, Advertising via ipad, Letter writing, MS Office, Fun Assignments and lot more made the Summer Camp a place full of amusing activities and assignments.

One of the 10th grade student said “yaha aana humko bohot pasand hai, kuch naya seekhne ko milta hai”.

Each day of the Summer Camp was full of creative learning and could not have been successful without the efforts of our Newgen volunteers, who not only added value to the sessions but also shared wonderful ideas with the Team. The Last Day of Summer Camp was wonderful, with our volunteers coming from Okhla and Noida facility. The toppers of the Summer Camp were awarded and special recognition was given to the best Sadbhavna Leaders who contributed to the program. The children now look forward to joining Newgen Digital Discovery Paatshala at Okhla office which is conducted every Friday, between 3 – 5 pm. This is a platform that imparts leadership skills to the students and they work hard, learn and imbibe values to aspire and become one of the leaders at our Next Summer Camp!
